

Strikes & OT Ban Suspended

What We've Achieved in Talks

- Every member of staff is covered by the salary guarantee **INCLUDING** any member with medical restrictions affecting their new grade.
- Limits on displacement.
- All Operational Supervisors to remain in Stations Function where RMT can effectively represent them.
- Agreement that job cuts should be reduced further as a result of further discussions.
- RMT can raise ANY issues that we need to including the overall Fit for the Future proposals in further talks.

What Happens Next?

- All outstanding issues will now be discussed further with the company.
- RMT remains opposed to LU's ticket office closures and will step up our public and political campaign against the plans.
- We will seek to make sure that LU's salary and location guarantee is effective for every member.
 - We will argue that members should not be forced to take on new responsibilities without our agreement.

- Overtime ban and threat of strikes has extracted further concessions from LU
- RMT negotiators will seek to minimise threat to members of Fit for the Future Changes
- But only way to protect ALL GRADES from further austerity cuts is to be ready to strike
