

Connect Radio Warning

Your reps have been made aware that if you make a phone call from a Connect Radio, the radio will begin recording you as soon as you dial the number and not only when the call is answered.

LU are attempting to discipline someone for a comment taken out of context whilst waiting for a call to connect.

Be vigilant at all times

HARASSMENT OF RMT REP

Industrial Rep for C&H East, Julie Cruse is being disciplined by management for raising concerns about harassment and bullying.

Julie, who is gay and disabled, raised a harassment and bullying case against her manager, along with three other colleagues on the group.

Instead of her claims being taken seriously, management have now moved Julie and another gay disabled woman off the group and they are facing ridiculous disciplinary charges, which don't even exist in London Underground's own procedures.

This is totally unacceptable and no one should fear being bullied or harassed at work or standing up for what is right.

Your Regional Organiser is dealing with this at the highest level of London Underground management.

VOTE MICHELLE RODGERS FOR RMT PRESIDENT

The RMT President is the custodian of our Rule Book and ensures that the day-to-day running of the union happens in a fair way.

They chair the NEC meetings, as well as our AGM and are also a public face of the union.

The President is elected for three years and then returns to work.

From October 1st, you will receive a ballot paper to elect the next National President. East Ham Branch encourages you to vote for Michelle Rodgers for the next RMT President.

Check out our Facebook page for videos and endorsement of Michelle

Driver Facilities Barking

Look out for a petition calling for decent mess facilities at Barking.

As long as drivers do not have walking time built into their meal reliefs, they should not be expected to use the facilities in Roding House. We should not be bullied into shortening our meal reliefs due to lack of facilities

Code 36 Scores

We have had reports of managers interviewing station staff for 'failing' Code 36 scores.

This is totally unacceptable and goes against agreements we have with the company. If you are interviewed by management, report it to your rep immediately
