

RMT THE FUTURE FOR WORKING CLASS POLITICAL REPRESENTATION

**MEETING FOR
ALL RMT MEMBERS
SATURDAY 12 SEPTEMBER
1100 HOURS TO 1330 HOURS
UNITY HOUSE, CHALTON
STREET, NW1
SPEAKER ALEX GORDON**

Britain is in the grip of a historic recession. Hundreds of thousands of workers are losing their jobs and their homes, and the public sector faces massive cuts after the next general election, no matter whether the Tories or New Labour win. All the main parties are mired in the expenses scandal. This year working class people have been fighting to save jobs and conditions – the RMT, CWU, construction workers at Lindsey, car workers at Visteon and Linamar, and workers at the Vestas wind turbine plant in the Isle of Wight. But there is no mainstream party which backs these workers, and which stands against job losses, cuts and privatisation.

The RMT backed No2EU - Yes to Democracy in the European elections earlier this year. This gave a left alternative to the pro-capitalist policies of the Labour, Tory and Liberal parties; it also gave an alternative to workers who in desperation looked to the racist far-right BNP for an alternative.

Come to this meeting to discuss how our Union, which leads the way in the industrial fight-back against the attacks on jobs and conditions, can give a political voice and a political lead to the working class in Britain.

At the next election it is a matter of urgency to discuss giving our class a left alternative to vote for. Discussions have continued amongst the participants of No2EU, aiming for a working class electoral challenge in the general election. Any electoral alternative will be most effective if it is built by the active participation of hundreds of trade unionists across London and nationally. Please come along to this important meeting.
