

TFL FUNDING RALLY

15TH OF JULY 6PM

The COVID-19 pandemic has caused massive financial challenges for Transport for London. The slump in passengers numbers and suspension of fares during the height of the lockdown has sucked £600m a month from its finances, which pushed it to the brink of collapse. TfL workers should not have to pay for the coronavirus crisis!

TRADE UNIONS DEMAND:

- No cuts to services. A fully funded, green, integrated and accessible public transport system to deliver London's economic recovery that meets air quality targets
- Full restoration of central government funding
- No job cuts and no deterioration in terms and conditions for all transport workers who have kept London moving through the crisis
