

## Transformation Consultation

Your RMT reps met today (13/11/17) with London Underground for the first consultation meeting for the latest phase on Transformation. We raised various issues with them including

- Needing clarity on who is in overall charge of the process as each work stream has been assigned a different lead manager
- Why ex Tube Lines as well as Fleet and Signals reps have been excluded from the consultation
- The need to have proper time to meet with our members, at a time and place convenient to them and with agreed release from their duties to attend
- Allowing reps sufficient time to represent our members, including providing all correspondence in a timely manner – not 15 minutes before meetings
- A commitment to engage in meaningful consultation

We requested a meeting with all reps present to discuss overarching issues from across all work streams, to be briefed on their aim in the transformation and to agree an agenda for meetings and staff drop in sessions (including for our members who work permanent nights). The company have agreed to this and hopefully it should take place before the end of the week.

We will update you once this has happened, but in the meantime if you have any questions or feedback, please contact your rep.
